

**Next generation detection  
& treatment of prostate  
disease.**

Incorporate Focalyx<sup>®</sup> fusion technology  
power & precision into your office  
and watch both your patients  
& practice thrive.

**Accuracy**  
is not optional.<sup>™</sup>

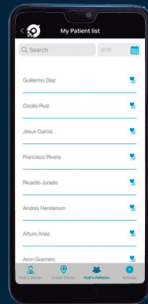

# Give us the opportunity to jump start your Prostate Fusion Program in 4 easy steps...

1

Focalyx® designs a treatment plan for your patients based on their MRI using our AI algorithms and know-how.

World class prostate care powered by science, technology & compassion.

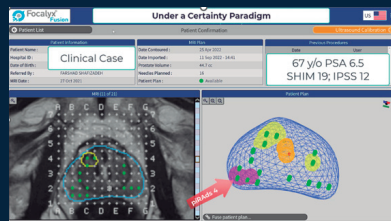

2

The treatment plan is transmitted into your Focalyx® workstation.

3

The procedure is ready for execution - cryo probes or laser fibers are inserted at the precise coordinates provided by the Focalyx® plan.

Focalyx® Dx

Focalyx® Bx

Focalyx® Tx

4

Registry data collection so you know your stats.

## Procedure logs

“As a private practice, Focalyx® has allowed me to bring focal therapy and transperineal MRI fusion biopsy to my patients and even receive referrals from tertiary centers and other institutions. It’s being over 3 years since I started the Focalyx program, and my patients are getting great results.”

**Dr. Farshad Shafizadeh**  
New York Urologic  
New York, NY

“The Focalyx® approach has changed my practice by delivering GPS-like precision to the diagnosis of Prostate Cancer and opening a new pathway to manage this entity, now taken by 35 to 40 of my patients every year.”

**Dr. Juan Ignacio Martínez-Salamanca**  
Lyx, Instituto de Urología  
Madrid, Spain

“As a general urologist, Focalyx® gives me the unique ability to treat patients with prostate cancer in the office without referring to the university hospital for robotic surgery or radiation therapy.”

**Dr. David Kaufman**  
Maiden Lane Medical  
New York, NY
